STATUS REPORT OF MUNICIPAL SOLID WASTE MANAGEMENT IN URBAN LOCAL BODIES
INTRODUCTION

Tripura, a State in North East India, lies between 22°56' and 24°32' North latitude and between 90°09' and 90°21' East longitudes, with an aerial extent of 10,491 sq. km. Tripura is bounded on north, west and southeast by International boundary with Bangladesh. On its east and north it has its common boundary with Assam & Mizoram.

The State has 8 (eight) administrative districts - North Tripura District, Unakoti, Dhalai District, Khowai District, West Tripura District, Sepahijala District, Gomati District, South Tripura District and 23 (twenty three) Sub Divisions namely Dharmanagar, Kanchanpur, Panisagar, Kailashahar, Kumarghat, Gandacherra, Ambassa, Kamalpur, Longtharai Valley, Khowai, Teliamura, Sadar, Jirania, Mohanpur, Bishalgarh, Sonamura, Jampuijala, Udaipur, Amarpur, Karbook, Belonia, Santirbazar, Sabroom.

Apart from Agartala Municipal Council, (to be upgraded to Corporation), the State is having 19 (nineteen) Nagar Panchayets namely Amarpur, Ambassa, Belonia, Bishalgarh, Dharmanagar, Kailasahar, Kamalpur, Khowai, Kumarghat, Ranirbazar, Sabroom, Santir Bazaar, Sonamura, Teliamura, Udaipur, Mohanpur, Melagarh, Panisagar & Jirania Nagar Panchayats out of which 4 (four) Nagar Panchayats are newly formed and 8 (eight) will be upgraded to Council.

Although around 70% of the State’s land area is hilly, 3 (three) distinct physiographic zones, nevertheless are discernible. These are i) N-S oriented hill ranges ii) Undulating plateau lands & iii) Low lying alluvial plains.

In Tripura, apart from Agartala Municipal Council (to be upgraded to Corporation) there are 19 (nineteen) Urban Local Bodies. The Government of Tripura has recently asked all the 19 (nineteen) Nagar Panchayets in the State to take steps needed for proper MSW Management. The Tripura State Pollution Control Board is playing catalytic role in this regard. The Board has provided 15 (fifteen) Tipper Trucks, one each to 15 Nagar Panchayats. Efforts will be taken to provide the Tipper Trucks to the newly formed 4 (four) Nagar Panchayats.

As per Municipal Solid Waste (Management & Handling) Rules, 2000, the Municipal Authorities/Urban Local Bodies are entrusted with responsibility for developing infrastructure for various functional element of Municipal Solid Waste Management. The Rules, inter alia, relates to the issues such as collection, transportation, processing and safe disposal. It has been observed that most of Urban Local Bodies are not implementing the Municipal Solid Waste (Management & Handling) Rules, 2000 in proper & efficient way due to lack of awareness & adequate knowledge. Lacks of financial resources, institutional weakness, public apathy etc. are also other reasons that responsible for poor management of Municipal Solid Waste in most of the Urban Local Bodies.

Unmanaged MSW’s ultimately makes their ways into the rivers and cause water pollution. As per Municipal Solid Waste (Management & Handling) Rules 2000, sanitary landfill is an effective system for disposal of Municipal Solid Waste for most of the urban areas, primarily due to problems associated with open dump sites such as surface & ground water contamination through runoff & percolation of leachates, air contamination due to gases, litter & bad odour. Sanitary landfill is recommended in Municipal Solid Waste (Management & Handling) Rules, 2000. However, dumping of Municipal solid waste in open areas is quite common place till today.

Tripura State Pollution Control Board was established under Section 4 of the Water (Prevention & Control of Pollution) Act 1974. Being a statutory body, Tripura State Pollution Control Board is working for abatement of pollution and protection of environment in the State. So far as implementation of Solid Waste (Management & Handling) Rules 2000 is concerned, it is the prime responsibility of Tripura State Pollution Control Board to ensure that the Solid Waste (Management & Handling) Rules 2000 are properly implemented in the entire State.

In order to access the present status of implementation of the Municipal Solid Waste (Management & Handling) Rules 2000, as on date Sri Manas Mukherjee, Executive Engineer & Sri Abhijit Sarkar, Programme Officer, officials of Tripura State Pollution Control Board have visited all the 19 (nineteen) Urban Local Bodies. They have also met the Authorities of different Urban Local Bodies and apprised them the different provisions of the Rules and also provided them the inputs for effective management of Municipal Solid Wastes. The findings of the visit are documented and placed seriatim.
Management of Municipal Solid Waste in Ranirbazar Nagar Panchayat

1. Name of the Urban Local Body: Ranirbazar Nagar Panchayat

2. Location
   a. District: West Tripura
   b. Sub-Division: Mohanpur
   c. District H/Q: Sadar

3. Chairperson
   a. Name: Sri Chandan Das
   b. Contact Number: 0381 2396228 (O)/ 09436137411(Mob)
   c. Email Address: rnbtrip.np@gmail.com

4. Executive Officer
   a. Name: Smt. Debjani Choudhury
   b. Contact Number: 0381 2396228(O)/ 9436590452(M)
   c. Email Address: rnbtrip.np@gmail.com
   d. Discharging the duties in addition: NIL

5. Total Area Of Urban Local Body: 1.95 sqkm

6. Population as per census 2011: 13117

7. Present Population: 14900

8. Number of Wards: 11

9. Employees detailed in Waste Management: 23; 1 Asstt. Engineer, 3 DRW Driver, 19 DRW Sweeper

10. Vehicles for Waste Disposal: 1 Truck, 1 Tipper, 1 Cremation Van, 1 Ambulance

11. Fund received from UDD for MSW: ₹ 6.40 lakhs

12. Waste Disposal Site
   a. Dedicated Site: Yes
   b. If Yes
      i. Area of the Land: 5.94 Acre
      ii. Is there Fencing?: Under Construction
   c. If No
      i. How the MSW is disposed?: NOT APPLICABLE
   d. Proposed New Site
      i. Area of the Land: NOT APPLICABLE
      ii. Khas / Forest Land: NOT APPLICABLE

13. Quantity of Waste Generated per day: 4.5 MT

14. Collection of MSW
   a. Door to Door Collection: No
   b. Road Side / VAT Collection: Dustbin – 35 Nos (120 ltr. each), 3 Nos (240 ltrs. each), & 15 Concrete dustbins

15. Waste are segregated OR dumped: No

16. Is BMW collected: No

17. Sewage / Drainage System
   a. Master Plan: No
   b. Where does the Water go?: The drains are constructed haphazardly and the sewage from the drains & the surface run off go to River Haora via Burama River.

18. TSPCB Authorization?: No
